

醫療低溫箱把手

TM-1627

Medical cryochamber handle

商品介紹 Product description

1. 偏心結構設計，可實現迫緊功能。
2. 手柄包膠處理，可用於低溫及高溫應用。

- 材質：不鏽鋼(SUS304)
- 表面處理：震動研磨
- 用途：醫療低溫箱、食品機械等

1. The eccentric structure design can realize the pressing function.
2. The handle is coated with rubber, which can be used for low temperature and high temperature applications.

- Material: Stainless steel(SUS304)
- Finish: Vibration grinding
- Uses: Medical cryobox, food machinery, etc.
